**Subject:** RE: Possibly Spam to the boss of your organisation

*Dear neighbour*

*We refer to your email sent on 10 May 2008. Whilst we appreciate your right and any other neighbour to object to our planning permit application, equally we ask that you appreciate that we have made a lawful application to the Council to allow the construction of an education building. As such, we do not intend to withdraw the application.*

*We were obviously most disappointed that you feel that you can not identify yourself which would enable us to discuss the application in an open and informative manner.*

*Should you wish to discuss this matter I am available at this email [mk@chabadyouth.org](mailto:mk@chabadyouth.org) or on 0408 740 011.*

*Thank you*

*Moshe Kahn*

**Subject:** Possibly Spam to the boss of your organisation

I am a neighbour who received a letter in my mail a couple of days ago. About a proposed 24/7 building. I believe that you do various good things in your organisation, but I don't believe this letter. But if it is true, I intend to start a web-site (<http://92hothamstreet.org/>) and mobilise all the neighbours to object. It will not be pretty if this happens.

If I don't hear back from you at this email address by Tuesday 12 o'clock that the application you mention has been withdrawn (I will check with the Council), I will start the web-site and mail drop to all neighbours without further notice. And it will be dirty. Because many of us are sick of cars in the morning and noise late at night, just from the existing things, and we will open up the whole pandora's box. And once the genie is out of the box, noone can put it back in again.

Waiting to hear from you.

Regards  
A considerate neighbour.

PS I got your email from the internet and the letter. I hope it's right.
